

RT105 RIDE-ON TRENCHER

KEY FEATURES/BENEFITS

TURBOCHARGED DEUTZ®, TIER 4 DIESEL ENGINE

with 107 hp (80 kW) provides the power to perform all machine tasks on the toughest jobs.

MECHANICALLY POWERED TRENCHER—the only one in its class—offers the most efficient way to transfer power, for long-term efficiency and productivity.

SIMPLE-TO-OPERATE POWERSHIFT TRANSMISSION gives you on-the-go shifting and no clutching, with the ability to easily go from forward to reverse.

PLANETARY AXLES WITH LOCKING

DIFFERENTIALS make maximum use of torque at the wheel and offer high ground clearance.

CUSTOM DESIGNED BACKFILL BLADE CONTROL

with an electronic float provides excellent controllability at your fingertips.

REDESIGNED OPERATOR'S STATION

features more legroom, a redesigned seat and controls console that rotates 120 degrees for easier, more comfortable operation.
