STAND-ON SKID STEER

Ditch Witch®

SK1050

Ideally suited for a variety of demanding jobsites, the Ditch Witch® SK1050 stand-on skid steer improves versatility and productivity by directing more hydraulic power to the attachment. The durable, construction-grade design eases operator maintenance for improved ROI, and outperforms all other working machines in its class. Designed specifically for the hardworking operator in mind, the best-in-class, spring-supported operator platform improves comfort for long hours on the job.

1,062-lb (482-kg) rated operating capacity and a best-in-class 83-inch (2.1-m) hinge-pin height for more productive loading.

Industry-leading power to the attachment provides unbeatable productivity.

Enhanced, full-color LCD display provides direct visibility and insight into all engine diagnostics.

Stage V Yanmar® diesel engine with 37 hp (27.6 kW) provides outstanding power for all functions.

A manual throttle lever has been added, enhancing the operator's ability to manage ground speeds for the task at hand for increased efficiency on the jobsite.

Ergonomic operator's station comes standard with dual-lever ground drive controls, allowing the operator to control each track independently for improved mobility; also available with optional single-lever joystick control.

332-in² (843-cm²) best-in-class, spring-supported platform is integrated directly in to the machine for outstanding comfort and durability.

Auxiliary control foot pedal helps you maintain hydraulic flow to the attachment, freeing your hands to control depth and ground speed.

A high-drive track system includes bolt-on, interchangeable rollers—a Ditch Witch exclusive—for longer lasting performance.

The SK1050 comes standard with 42-inch (107-cm) tracks.
